OBJECTIVE

I am a frontend developer. I am at the beginning of my career and I am trying my best to improve myself. As a web developer who is eager to continuously improve myself in the field of websites, I am applying to you. I want to focus on my contributions and goals in web development.

SKILLS

Frontend: HTML5 || CSS3 || JavaScript || Tailwind CSS || React

Backend: Node.js || MongoDB || Express.js

Tools: Git || Github || Firebase || VS Code || NPM || React Router || JWT || Surge || Vercel

Others: Photo Editing || Video Editing || MS Office

PROJECT

1. E-commerce: (E-Shop)

This is a buy-sell website similar to platforms like Daraz and Alibaba. The platform includes user, shop moderator, and admin roles. Users can purchase products from any shop. while moderators can add products for sale. Admins oversee and review activities, taking necessary actions as required.

[Live web](#) || [Client code](#) || [Server code](#)

Technologies: React | Node.js | MongoDB

2. Library: (TC-Library)

This is an online library website where users can explore books across different categories and access information for downloading. Users also have the option to borrow any available book from the collection. Admin can add and update books.
